NAVIGATION AND PRINTING

The printed contents links to every office and election cycle. The PDF outline continues through state and individual district or statewide race. Race blocks run continuously instead of forcing one state or contest onto its own page. Every candidate record retained in the archive appears with party, votes, share, and incumbent status when available.

Special-election records remain winner-level when the underlying archive contains no complete candidate tally. A dash means unavailable, not zero. Provisional or uncalled contests are labeled and are not converted into certified outcomes.

Administration term: 1981-01-20 through 1989-01-20. Archive snapshot: 2026-11-08T18:44:15.675Z.

Administration Analysis

Ronald Reagan entered office after a 1980 Republican presidential landslide and the first Republican Senate majority since 1955, while Democrats retained the House. The 1982 recession midterm enlarged the Democratic House majority. Reagan won 49 states in 1984. Democrats recaptured the Senate in 1986, leaving the final two years under fully Democratic congressional control, and George H. W. Bush preserved Republican presidential control in 1988.

1980 ELECTION ENVIRONMENT

Inflation, unemployment, the Iran hostage crisis, and dissatisfaction with the Carter administration framed the transition. Reagan won 489 electoral votes; Republicans took the Senate while Democrats retained the House.

Methodology and Sources

METHOD. Regular contests are grouped by office, cycle, state, and district. Every candidate object in the archive is rendered. Vote and percentage fields are printed only when present. Presidential electoral allocations, special circumstances, certification status, incumbency flags, and prior-cycle comparisons are retained where available. The dense layout removes forced state page breaks but does not remove race data.

KNOWN LIMITS

- Congressional candidate ballot lines are collapsed to one candidate total; every resulting candidate record is retained.

- Final regular runoffs replace first-round regular general results.

- The 1982 House comparison crosses post-1980 Census redistricting; identical district numbers do not imply identical geography.

- The Senate race ledger describes seats contested in each cycle, not the full 100-seat chamber composition.

- Presidential results use statewide returns rather than county-level records. The 1988 West Virginia faithless-elector vote for Lloyd Bentsen is stored separately.

- The special-election section is a complete winner register from the FEC list. It does not claim complete candidate vote totals for those contests.
