NAVIGATION AND PRINTING

The printed contents links to every office and election cycle. The PDF outline continues through state and individual district or statewide race. Race blocks run continuously instead of forcing one state or contest onto its own page. Every candidate record retained in the archive appears with party, votes, share, and incumbent status when available.

Special-election records remain winner-level when the underlying archive contains no complete candidate tally. A dash means unavailable, not zero. Provisional or uncalled contests are labeled and are not converted into certified outcomes.

Methodology and Sources

METHOD. Regular contests are grouped by office, cycle, state, and district. Every candidate object in the archive is rendered. Vote and percentage fields are printed only when present. Presidential electoral allocations, special circumstances, certification status, incumbency flags, and prior-cycle comparisons are retained where available. The dense layout removes forced state page breaks but does not remove race data.

KNOWN LIMITS

- The 1920 election preceded Harding's March 1921 inauguration but is included as the election that created the administration and the 67th Congress.

- The official 1920 and 1922 Clerk publications are image-only scans. Structured state transcriptions are used for the searchable candidate ledger and checked against official chamber outcomes and national recapitulations.

- Some state tables omit unopposed returns or contain partial local totals. Those contests retain the certified winner and reported share while unavailable candidate vote fields remain blank rather than being estimated.

- Maine held its congressional elections in September in both cycles. Presidential voting still occurred in November 1920, so the Maine record combines separate official election dates without treating either as a duplicate.

- At-large and multi-member ballots are indexed as separate seats when required. A shared ballot is counted once in national vote aggregation.

- The Senate ledger counts ballot contests, not only six-year seats. Separate short-term and full-term ballot lines are retained as separate contests.

- The special-election section is a complete winner register for voting House seats during the scoped administration and does not claim complete candidate vote totals. Territorial delegate vacancies are excluded.

- The 1924 regular presidential and congressional election is reserved for the Calvin Coolidge volume to avoid duplicating a full regular cycle. The Harding register ends with House special elections held through August 2, 1923.
